Introduction

This book contains forty transcriptions of the sermons in the Daniel and Revelations series. The first four transcriptions are of sermons from the book of Daniel. The next three sermons give an outline of the book of Revelations and then there are three transcriptions providing the keys to understand the book of Revelations.

The remaining thirty transcriptions provide additional understand of the book of Revelations and prophecy. The audio messages for all of the Daniel - Revelations Series are contained on 3 MP3 CDs that accompanies this book. This combination of the book and the CDs are designed to help each of you to develop the best relationship with God the Father that is possible. By using the transcriptions while you listen to the audio message has proven to improve comprehension and memory as well as provide a convenient way of making private notes.

The book of Revelations relates back to the beginning and takes us clear to the end of Gods plan. Without the book of Revelations you cannot understand the Bible. Without the book of Revelations you can not understand Daniel very well. The book of Daniel and the book of Revelations go hand in hand. The book of Revelations helps us to understand the scriptural, historical, and prophetic Biblical interpretations of the end time events.

Two charts accompany this book. One single sided chart showing the prophecies of the reign of Gentile kingdoms is to be used with the four sermons on Daniel. A second double sided chart shows the "last seven year time line" on one side is to be used with Revelations Outline #1 and #2. The other side shows the calculated Hebrew calendar for the last 7 years and is to be used with Revelations Outline #3. These charts are not bound into the book so it will be easy to refer to them throughout these sermons.

It is our goal, in presenting this information in this format, to help you develop that personal relationship with God Our Father that is so important to each Christian.

Because we felt this series is so important we have produced this preliminary edition in order to make it available as soon as possible. Please accept our apology for any errors you may find in this series. A final edited and formatted edition will be produced some time in the future.

A special thanks goes to Bonnie Orswell for transcribing the sermons.

Note:

The three MP3 CDs that accompany this book are unedited, digitized copies of the original cassette tapes. Therefore some of the tracks contain what was current news at that time or information about plans for the continued study of the book of Revelations that was appropriate when it was recorded but is not now. This introductory material was not included in the transcriptions and can make it seem that the transcription is not the correct one. Just continue to let the CD play until the start of the sermon, at which point they should match. Our goal was to make this study material available as soon as possible and editing audio files can take considerable time, especially since there are approximately 60 hours of audio on these three CDs.
