

World Government Thru the Coming World Bank I

Fred Coulter—October 9, 2010

We just got back from the Feast of Tabernacles and there we learned an awful lot about what we're going to be doing as kings and priests in the Kingdom of God. On the other hand, the world is looking for a new world order and they don't understand that the *real new world order* is going to come when Jesus returns.

How many here watch Glenn Beck? *Quite a few of you watch Glenn Beck.* Well, he has been doing a very good job in showing that for the last 120-years what has happened in America because of what is called the 'progressives.' Now let's define it a little bit differently: *because of the elite who want to establish a new world order with a world government.* All of the things that he brings out are all very accurate. I was watching one the other day and I thought to myself, 'Glenn, we've known this for 30-years.' And it is generally called and referred to by other as 'conspiracy.' Well, a lot of people don't like to believe in a conspiracy, but there is a *conspiracy* and we know who the leader of the conspiracy is.

Let's come here to Revelation. We're going to spend some time in prophecy and we're going to look at the coming New World Order and how they're going to bring it in. Now, Satan has those who work for him. He has his ministers, he has his agents, he has his government leaders, his scientific leaders, and all of these things. But here we find in Revelation 12:9 something that is really important for us to understand, though we know it. Because all of the things politically and religiously and economically that we are told are not the reality of what the New World Order 'conspiracy people' are really doing.

When there's a conspiracy that means there are people planning to do something that is going to be executed against people, and they don't want the people against whom they're going to execute it to know about it. So they can announce their plans and couch it in ways that sound good. If you want a perfect example of that, all you have to do is just listen to the political things coming out of Washington, D.C., today.

Revelation 12:9: "And the great dragon was cast out, the ancient serpent who is called the Devil and Satan, who is deceiving the whole world..." This is very interesting in the Greek, because it is present tense active: "...**is deceiving** the whole world..." Now let's understand something. When the book of Revelation talks about the whole world, all inhabitants, the whole earth, it means just that. We

can see it more and more and some of the things we'll go through today you'll understand that.

Let's come to Matthew 24; let's tie some other Scriptures together. As we look at the news and we look out and we see the things that are going on, the things that are taking place in the world, and as a matter of fact, the more you read and understand the Bible and the book of Revelation, the more the news looks like that. Here is what all the disciples and everyone wants to know:

- When is the end?
- When is Jesus returning?
- What is going to happen?
- How long will it be?
- What are the signs that are taking place?

We're not going to cover all of those today, because we're going to cover an aspect concerning finances.

Matthew 24:3: "His disciples came to Him alone, saying, 'Tell us, when shall these things be? And what *shall be* the sign of Your coming, and of the completion of the age?' [We're going to see some of the statements that have to include the things in the Old Testament as well.] ...then Jesus answered *and* said to them, 'Be on guard, so that no one deceives you. For many shall come in My name, saying, "I am the Christ"; and they shall deceive many'" (vs 3-5). And in the end-time look at it, we have more Christian denominations, more people professing Christ. We even have Satanists professing Christ themselves; not the true Christ, but their version of it.

"...and shall deceive many... [In the New Testament when Jesus says *many* that means the majority.] ...And you shall hear of wars and rumors of wars. See *that* you do not let *these things* disturb you. For it is necessary *that* all *these things* take place, but the end is not yet. For nation shall rise against nation, and kingdom against kingdom; and there shall be famines and pestilences and earthquakes in *different* places. Now all these *things are* the beginning of sorrows'" (vs 5-8).

But also these are things that cyclically happen in history—aren't they? So He's got to be speaking about a specific time where all of these things become relevant. Just look at my lifetime, what do we have? WWII, Korean War, Vietnam War, Iraq, Afghanistan, other little wars in different places, threats of war, North Korea, South Korea, Iran, all of these things taking place today. What's going to happen in the future?

Verse 11: “And many false prophets shall arise, and shall deceive many.” [That’s the real important thing today. Where is the Truth, the whole Truth, and nothing but the Truth? That’s a problem. A lot of people have parts of Truth. Just like Glenn Beck, he has a lot of the things that are true, but he’s got some fundamental things that are absolutely wrong. So how far can he go in understanding it? I mean, *in even exposing what he’s doing with the New World Order*, he’s got to have bodyguards all the time.]

Here’s something that we’re seeing more and more and it’s happening with almost unabated multiplying of this, v 12: “And because lawlessness shall be multiplied, the love of many shall grow cold.” Now we see that. And what happens when you have a lot of lawlessness? *You have to have police that are like soldiers* because there are so many people determined to do things that are evil, when lawlessness increases on every fold, every way.

Here’s something we could look at and yet it doesn’t tell us how much and how long and how thorough, v 14: “And this Gospel of the Kingdom shall be proclaimed in **all**... [Now what I want you to do is mark those things—*all, the whole, everyone, many*—because this becomes important.] ...proclaimed in **all** the world for a witness to **all** nations... [That’s quite a task! So this may tell us we do have quite a bit of time left. And we’ll figure that out, not exactly, but some of it.] ...and then shall the end come.” I already gave a sermon concerning the abomination of desolation, so if you see that and you’re not in a place of safety and you’re still alive, you know the Great Tribulation is starting, bam!, immediately. If you’re in the grave, you’re in a place of safety and you won’t see it. There we go!

Verse 32: “Now learn this parable from the fig tree: When its branches have already become tender, and it puts forth its leaves, you know that summer *is* near.” But it doesn’t tell you when summer is. It doesn’t tell you how warm or how cold. It’s like this year, it’s been very cold all summer [in California]. We didn’t think we’d get any tomatoes and here we are right now in the middle of October harvesting tomatoes. Normally the tomatoes are all over with by that time. So you don’t know. Is it a long summer or short summer, a hot summer, a cold summer? So this gives you a good evaluation of the different events that come along.

“In like manner... [this statement is really important to understand]: ...**when you see all these things**...” What is included in *all*? Well, He talks about Daniel. That means we have to look to the book of Daniel—correct? *Yes!* Daniel ties in with Revelation—right? So then, we have to include the

book of Revelation—don’t we? Then do we have prophecies in Isaiah, Jeremiah, Ezekiel, and the other prophets talking about the end-time? *Yes!* ...when you see **all** these things...” In other words, everything has to be on stage and working.

Now I’ve given several sermons on the *Fourteen Things That Need to Happen in Prophecy* before the end. And I’m going to include it on this CD that we’re sending out. And I’m also going to include the two sermons that I did, *The Stealth Revolution* in government and in religion. There are a lot of people that just do not think that there are absolutely evil people in high places really running an agenda that is contrary to all people in the world. Not just America.

“...when you see **all** these things, know that it is near... [What? *The end of the age!*] ...even at the doors.... [Now that’s pretty close—isn’t it? If someone’s standing on your front porch and they knock on the door, they’re right there.] ...Truly I say to you, this generation... [Which generation? *A lot of people thought that that meant the generation from the crucifixion of Christ to the destruction of the temple.* But did that fulfill all prophecy at that time? *Of course not!* So which generation is it talking about? *The last generation!*] ...this generation shall in no wise pass away until **all** these things have taken place.... [Now to make sure that everyone understands that it’s going to happen]: ...The heaven and the earth shall pass away, but My words shall never pass away” (vs 33-35).

Who was Jesus Christ before He came in the flesh? *The Lord God of the Old Testament!* So therefore, does this statement include all of the words that pertain to this in the Old Testament, in the prophecies and things that were written? *Yes!*

“But concerning that day, and the hour, no one knows, not even the angels of heaven, but My Father only” (v 36).

Now we have 2012 coming up. What’s coming up in 2012? All of you’ve seen that, the Mayan calendar predicting the end of the age, 5700 years. And what is supposed to happen is this: Here is the plain of the galaxy in which the earth and the solar system is contained. The earth and solar system are in an orbit around that plain, kind of in an ellipse. So there comes a time when it runs correct center all the way through. And they’re saying, ‘Oh, great things are going to happen.’ Well, they said that how many times when all the planets lined up, remember, ‘Oh, great things are going to happen on the earth because all the planets are lined up in a row.’ Nothing happened! So I don’t think anything of substantive consequence is going to happen. Everyone’s going to say, ‘Well, the end of the earth, the end of the world.’ There’s a whole lot more that

has to happen. So today we're going to look at one of them.

But let's again analyze what else He said here and then we will see what we also need to look for. "For as in the days that *were* before the Flood, they were eating and drinking, marrying and giving in marriage, until the day that Noah entered the ark; and they were not aware until the Flood came and took *them* all away; so shall *it* also be *at* the coming of the Son of man" (vs 38-39). Very interesting statement—isn't it? How was it in the days of Noah?

Let's look at it backwards. If we look out at the world today, that's how it was in the days of Noah. Let's go back and see the main thing. And as we come back here, we'll ask some very important questions. We need to understand. There are only two times in the history of man when men began to multiply on the face of the earth, that was in the days of Noah (Gen. 6:1). You reach a point where you have so many people and so many babies are being born and countries are expanding and populations are expanding. Look at what we have today. When you have that, coupled with what we find in Genesis 6:5, you have what is described as lawlessness back in Matt. 24.

Genesis 6:5: "And the LORD saw that the wickedness of man *was* great on the earth, and every imagination of the thoughts of his heart *was* only evil continually.... [This also tells us several things. Not only evil starts in the mind, but God also understands our minds. What happens when the minds are set to do evil, only evil? *The world is in a terrible, terrible mess, so bad!*] ...And the LORD repented that He had made man on the earth, and He was grieved in His heart. And the LORD said... [I want you to think about this statement, because it's talking about the days of the end-times are like it was in the days of Noah before the Flood.] ...'I will destroy man whom I have created from the face of the earth, both man and beast, and the crawling thing, and the fowl of the air; for I repent that I made them'" (vs 5-7). Why kill all of them? What was it that man was doing in his lawlessness? Now remember, 'Every way of a man is right in his own eyes and everything that he is doing is just in what he is doing.'

"But Noah found grace in the eyes of the LORD. These are the generations of Noah. Noah was a righteous man and perfect in his generations [genealogy] for Noah walked with God" (vs 8-9). 'In his genealogy'—why? And then you have to ask the question, why didn't Shem, Ham, and Japheth have children until after the Flood? And why did God pick a man who was perfect in his genealogy?

I've got a whole report that will blow you away. Remember, what was it, two years or three

years ago, I got some complaints about the two sermons I did on Ray Kurzweil and what was that, *The Singularity is Near*—the unity of man and computer. That's already antique and old. They are ready to start gene splicing with human beings. They're already doing it with animals. Does that answer the question why God had to kill everything? I mean, 'As it was in the days of Noah, so shall it be in the days of the coming of the Son of man.' And you know almost every picture you see of Noah and his sons they look like stupid cavemen and that they had chimpanzees for weavers for their clothes, and they had tinker toy tools to build the biggest ship that has ever been built from the time of the Flood until WWII, the ark! Do you suppose they didn't know anything about electricity? Do you suppose that they didn't know anything about flying? Let's say they did exactly all of those things. Because if it is today like it was then, what were they doing? *Exactly the same thing we see now!* So then God says He's going to destroy it all.

"Now the earth also was corrupt before God... [That means the physical earth. It was corrupted, polluted. What's one of the big problems we have today? *Corruption and polluting the earth—right? Yes!*] ...and the earth was filled with violence. And God looked upon the earth, and behold, it was corrupt—for **all** flesh had corrupted its way upon the earth" (vs 11-12). **!!!**

How corrupt did it get? Was it in behavior? Was it in inheritance? We've talked about this gene splicing before and I made a comment. In reading that report what they're saying is this: 'If we don't get in and do it, other countries will do it and they'll have an advantage over us.' Instead of saying, 'Hey, we're tinkering with God's creation, back away everyone!' *No!* But they've done to all of our food—haven't they? *Gene splicing!* They've done it to the animals. Now it's time to do it to human beings, so that we can live longer, become like God, so that we can have bigger brains, think more. We can have better athletes; they can be stronger, bigger; at basketball, jump higher, run faster. Do you think that they had sports back then? *Of course, they had sports!* It's in the nature of human beings to have sports—right? *Yes, indeed!*

You get two kids together with a little round object and they've got a game going—right? Then you get many little round objects. When I was a kid growing up I played marbles, and man, I felt really cheated when a guy came and said, 'Let's play marbles.' *Yeah, let's play marbles.* I beat the guy many times before. So that day he pulled out his big steely, a ball bearing, and wiped everything out. So what happened? *I had to have a steely; of course!*

After the Flood is still 'in the days of Noah' for 350 years—right? Isn't it? *Yes, it is!* Now, let's

see what they were doing here. Genesis 11:1: “And the whole earth was of one language and one speech. And it came to pass, as they were migrating toward the east, they found a plain in the land of Shinar. And they settled there. And they said to one another, ‘Come, let us make bricks and burn them thoroughly.’ And they had brick for stone, and they had asphalt for mortar. And they said, ‘Come, let us build us a city and a tower, *with its top reaching into the heavens...*’” (vs 1-4). Do you know where the tallest building in the world is today? *About a hundred miles from this place, in Dubai.* What is that, 2,717 feet^[transcriber’s correction]? Can you imagine that for a window-washing job? Man has always wanted to get up there—right? They need to read the book of Revelation. The book of Revelation said there was an earthquake so great that all the buildings of the cities fell, means they just collapsed.

So here’s what they said, wanting to get out into space. I think it’s interesting, you watch these things about space exploration and they say, ‘Oh, we’re out here in this planet or in this star at 430-degrees below zero they have the biological chemicals for life.’ Really? How are you going to have life at 430-degrees below zero? ‘Oh, but that probably came to the earth and that’s how life started.’ When everything on the earth shows and demands there must be a Creator. So do the heavens. They want to go out in the heavens. They want to mine the moon. They still haven’t found water on Mars and they still haven’t found any life on Mars. What do they say? Where there’s water, there’s life. Is that true? *No!* When God started re-creating the earth, the earth was covered with water—right? *Yes, it was!* So ***until God puts life in the water, there’s no life in the water.***

“‘And let us establish a name for ourselves, lest we be scattered upon the face of the whole earth.’ And the LORD came down to see the city and the tower which the children of men had built. And the LORD said...” (vs 4-6). Here is a significant statement showing the ability of man. You go back and you think that from the time of the steam engine until now is a little over 200-years. And we didn’t make much progress with the steam engine until we came to the time of petroleum and gasoline and oil. That’s just a little over a hundred years. And look how much has been done since then. And look how much knowledge has increased. It’s just increasing and increasing just exponentially just like this and it’s opening up new avenues and new things that whatever man desires to do or imagines to do, he’s going to do. And it always ends up being evil.

So here’s what the Lord said: “‘...Behold, the people *are* one and they all have one language.... [We’re getting close to it now with computer language.] ...And this *is only the beginning of what*

they will do—now **nothing which they have imagined to do will be restrained from them....** [Because God gave men brains capable of making and building and inventing and doing.] ...and nothing which they have imagined to do will be restrained from them” (v 6). So that gets into the things like we talked about, gene splicing and so forth. They went down and confused their languages.

Let’s come back to Revelation 17, because where we left off in Gen. 11 was actually the seeds of Babylon. Here in Rev. 17 we’re talking about Babylon the Great. God labels it for its origin, refers to it as a city, but He’s talking about the whole earth. We’re going to see there are three elements to this:

1. religion
2. government
3. business

All included in Babylon the Great.

Revelation 17:1: “And one of the seven angels who had the seven vials came and spoke with me, saying to me, ‘Come here’ I will show you the judgment of the great whore who sits upon many waters; With whom the kings of the earth have committed fornication... [Instead of serving God, they served the system. That’s what it’s talking about.] ...and those who dwell on the earth were made drunk with the wine of her fornication” (vs 1-2). When you’re drunk, you can’t understand. You can’t see straight. Your judgment is impaired—correct?

“Then he carried me away in *the* spirit to a wilderness; and I saw a woman sitting upon a scarlet beast... [That’s the government. The woman is the religion.] ...that had seven heads and ten horns, full of names of blasphemy. And the woman *was* clothed in purple and scarlet, and *was* adorned with gold and pearls and precious stones; *and* she had a golden cup in her hand, filled with abominations and *the* filthiness of her fornication; And across her forehead a name *was* written: MYSTERY, BABYLON THE GREAT... [Now mystery means secret, because Babylon is formed because of a conspiracy.] ...THE MOTHER OF THE HARLOTS AND OF THE ABOMINATIONS OF THE EARTH. And I saw the woman drunk with the blood of the saints, and with the blood of the martyrs of Jesus....” (vs 3-6).

Let’s see that this was prophesied. So when you talk about, ‘see all of these things come to pass,’ you must include the prophecies that talk about it, because this gives us an understanding of it.

Jeremiah 25:13: “And I will bring on the land... [That is Chaldeans and Babylon.] ...all My words which I have spoken against it, all that is written in this book which Jeremiah has prophesied against all the nations.... [What we’re going to see is

that we're not restricted to just the time of Jeremiah.] ...For many nations and great kings shall make them slaves also. And I will repay them according to their deeds, and according to the works of their own hands. For thus says the LORD, the God of Israel, to me, 'Take the wine cup of this wrath at My hand... [That's the cup that the woman has back there.] ...and cause all nations to whom I shall send you to drink it.... [All nations! No one's excluded!] ...And they shall drink, and reel to and fro, and be crazed because of the sword that I will send among them.' Then I took the cup at the LORD'S hand, and made all the nations drink, to whom the LORD had sent me" (vs 13-17).

This is obviously in vision. He didn't go to all of these places and travel around. He would have never finished what he was supposed to do otherwise.

Verse 26^[transcriber's correction] after it lists all those kings. "And all the kings of the north, far and near, one with another, and all the kingdoms of the world... [Now notice how important that is.] ...all the kingdoms of the world, which *are* on the face of the earth... [Now that can only be at the end-time.] ...and the king of Sheshach shall drink after them." And they've never found the king of Sheshach—why? *Because that's the one who's going to be the beast of Rev. 13, who received the deadly wound and it was healed.*

Verse 27: "Therefore you shall say to them, 'Thus says the LORD of hosts, the God of Israel, 'Drink and be drunk, and vomit, and fall, and rise no more because of the sword which I will send among you.'" Thus says the LORD of hosts, 'You shall certainly drink. For, lo, I begin to bring evil on the city which is called by My name; and shall you go unpunished? You shall not go unpunished. For I will call for a sword on all the inhabitants of the earth,' says the LORD of hosts" (vs 27-29). Does that not sound like the Great Tribulation affecting all nations? *Yes, indeed!*

"And prophesy against them all these words, and say to them, 'The LORD shall roar from on high... [Is that not Jesus' return?] ...and utter His voice from His holy habitation. He shall mightily roar over His dwelling place. He shall give a shout, like those who tread out *grapes*, against **all** the people of the earth.... [When you really understand—*all, everyone, the earth, the inhabitants.*] ...A noise shall come to the ends of the earth; for the LORD has a controversy with the nations; He will plead with all flesh. He will give those *who are* wicked to the sword,' says the LORD'" (vs 30-31). Just like He said, He was going to destroy all flesh in Gen. 6, this affects all flesh.

Let's mix in something else with this, so we can see what is going on. What I would like you to

do is to read the whole thing and what you are going to find is you're going to find all of Ezek. 27 talking about worldwide trade. That's a prophecy of what is happening right now. That becomes an important thing to understand with what's going to occur in the next few years leading up to the things which will take place at the end-time. You have the names of the nations that were then, but where they are in modern nations today it's a little more difficult to figure.

Let's come here to Revelation 18 and let's see where it talks about the merchants of the earth, because the merchants of the earth are also involved. You have: religion, government and merchants. And the merchants include what? *Banking!* So we're going to narrow it down here in just a little bit.

Revelation 18:1: "And after these things I saw an angel descending from heaven, having great authority; and the earth was illuminated with his glory. And he cried out mightily with a loud voice, saying, 'Babylon the Great is fallen, is fallen, and has become a habitation of demons, and a prison of every unclean spirit, and a prison of every unclean and hated bird; because **all** nations have drunk of the wine of the fury of her fornication...' (vs 1-3). It's like it says back there in Jer. 25, *all nations!* This is why when we tie it together with Rev. 13 and *the beast* there, he's given authority over the whole earth.

After he recovers from the deadly wound, Revelation 13:6: "And he opened his mouth in blasphemy against God, to blaspheme His name, and His tabernacle, and those who dwell in heaven. And he was given *power* to make war against the saints, and to overcome them; and he was given authority over **every tribe and language and nation**.... [These are worldwide things that are going to take place.] ...And all who dwell on the earth will worship him, whose names have not been written in the book of life of the Lamb slain from *the* foundation of *the* world" (vs 6-8).

Revelation 18:3: "'Because **all** nations have drunk of the wine of the fury of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth have become rich through the power of her luxury.'" Do we have super-wealthy elite in the world running the whole world today? *Yes!* One man, George Soros, back in the 1990s drove the British pound down, and almost broke the Bank of England single handedly, and he's wanting to do that to the United States. Well, we'll have to see what happens. Merchants: Think of the great corporations—auto, airplane, oil, industry. "Merchants of the earth have become rich through the power of her luxury." All of the multi-national and trans-national, international, and global organizations, there they are.

So God says, v 4: “And I heard another voice from heaven, saying, ‘Come out of her, My people, so that you do not take part in her sins, and that you do not receive of her plagues, for her sins have reached as far as heaven, and God has remembered her iniquities.... [Don’t ever get upset that all the evil is taking place and God hasn’t done anything about it. He’s going to. You just have to wait on Him to do it. He’s going to.] ...Render to her as she has rendered to you; and give to her double, even according to her works. In the cup that she mixed, give her back double. To the degree that she glorified herself and lived luxuriously, give to her as much torment and sorrow. For she says in her heart, “I sit a queen enthroned, and am not a widow; and in no way shall I experience sorrow.” For this very reason, her plagues shall come in one day—death and sorrow and famine; and she shall be burned with fire; for *the Lord God, Who executes judgment upon her, is powerful*” (vs 4-8). Then they’re all going to wail and moan when that day takes place.

(go to the next track)

Let’s see what sort of monetary system that the book of Revelation tells us we’re going to have. How do we get from here to there? We just read in Rev. 13 how that *the beast* is going to have power over all the earth. How is he going to get it? *They’ve tried the League of Nations and the United Nations, both are failing.* From 2008 till today they tried to take over the United States and convert it into a Socialist/Marxist state as quickly as they could, and they didn’t get it done. The election that is coming up may be such a backlash that they’re not going to get it done. How are the prophecies, Revelation and the rest of the Bible, going to be fulfilled?

All right, first of all let me just tell you about the way that they operate politically, religiously, and economically. This a special article, I won’t read the whole thing. This has been out there a long time. And it is disclosure from an insider, one who has been in on the meetings of the super-elite to bring the world government, to bring in world commerce, and to bring in a world religion. His name is Dr. Richard Day; here’s what he says: *News with Views*, March 25, 2007 (NewsWithViews.com)

Everything that they say and tell you has two purposes.

You heard me say about politicians talking out both sides of their mouths.

One is the ostensible purpose which will make it acceptable to people. The second is the real purpose which will further the goals of establishing the new system or the new world order.

We had a discussion during the break about these new smart meters run by microwave towers. Ostensibly it is to what? *Conserve electricity, greater use of power, etc., etc.* But what does it also do? *They have microwave receptors to go into your house, which means that gives them the ability to monitor everything you say and do and where you are in your house at any time.* Now then there are a whole list of things there too long to cover.

Here’s another report: The U.N. Says Scrap the Dollar as the Sole Reserve Currency. What happened in 1978 when the U.S. officially went off the gold standard, combined with Brentwood, which was after WWII, all oil in the world was to be bought and sold in dollars. That’s how the United States dollar became the international currency and a reserve currency. A particular nation, if it wanted to buy oil, then it would have to get dollars from the United States or someplace else to buy it. So this is what made the dollar so powerful. Now they’re saying that they ought to abandon the U.S. dollar and get a store of other currencies through the International Monetary Fund, or the IMF. You’ve heard that—haven’t you? You’re going to hear more of it, but the problem is: How do you do it? *The dollar is so powerful!* You can stand there and say, ‘We need to get rid of it.’ Then they ask how. ‘No, let’s not do that!’ So it’s not quite that simple, yet the dollar continues to go down in value.

Here’s what they’re really squawking about right now, this is really raising a lot of hackles. Remember, that since the new President came in, we’ve gone nearly \$3-trillion more in debt as a nation. And for all the debt in the United States and everything that we have, public, private, everything, is about \$137-trillion. Never be paid! What’s going to happen? Why did it get in that position?

Well, ‘Uncle’ Ben Bernanke says, ‘Well, the way we can solve the problem is print more money.’ Just like they did in Germany in 1930s—and what happened? They printed the money and everything went fine. So they printed more money and everything went fine. Then all of a sudden it spiked up and the prices went up. I just have a report here about food prices and commodities going up to where you’re going to go in the store in the next month or two and you’re going to see prices twenty and thirty percent higher! The first sign of the inflation because of debt and because of printing money. And yet what are they doing? *Zero interest rate!* They’re getting the money for nothing. That’s going to lead to the next report: The Death of Paper Money. *Dying of Money: Lessons of the Great German and American Inflations* by Jens O. Parsson is a book that was published in 1974 and it’s selling on eBay for \$699 and guess who is reading it?

'Uncle' Ben! Why are they doing that? To keep the dollar afloat? *Couldn't be!*

The critical passage comes from chapter 17 entitled, *Velocity*. Each big inflation whether the early 1920s in Germany or Korean and Vietnam Wars in the U.S. starts with a passive expansion in the quantity of money. This sets inert for a surprisingly long time. Asset prices may go up, but latent price inflation is disguised. The affect is much like lighter fluid on a campfire before a match is struck.

That's how I used to do my campfires when I had charge of the youth when I was in another church and take them out on a campout. I'd get up first and I'd get the fire going. I would put some white gasoline on the wood, stand about ten feet back, throw a match on it—VOOM! Had a roaring fire. All the kids would say, 'Yea!' come out and get warmed up. But that's what they're saying that it's like here now with the inflation.

The people's willingness to hold money can change suddenly from a psychological and spontaneous reason...

All of a sudden now they've got to get rid of the money and buy something,

...causing a spike in the velocity of money and it can occur at lightning speed over a few weeks. The shift invariably catches economists by surprise. They wait too long to drain the excess money out of circulation.

And what happened? *It took a wheelbarrow of paper money to buy a loaf of bread.*

Velocity took an almost wide-angle upturn in the summer of 1922. Reichstag officials were baffled. They could not fathom why the German people had started to behave differently almost two years after the bank had already boosted the money supply. He contends that the public patience snapped abruptly once the people lost trust and began to smell a government rat.

Are we almost there?

Some might smile at the Bank of England's surprise at the recent jump in the British inflation. Across the Atlantic Fed critics say the rise in the U.S. monetary base from \$871-billion up to \$2-trillion, \$240-billion in just two years is an incendiary pyre that will ignite as soon as the U.S. money velocity returns to normal.

Why are they doing this? Remember, everything is planned. What happened in October 2008? *All of a sudden there was a run on the money-market funds.* Now what is a run on the money-market funds? *People started drawing their money out!* But, who? *These were big institutions drawing it out of the money-market funds so fast that it almost collapsed the monetary system in America.* Who? *We're never told!* Likewise with the Federal Reserve Bank and every central bank in the world of which there are 57 central banks. They are independent, privately-owned banks, though they look like they're sponsored by the country. The Federal Reserve is owned by *foreign* bankers. That goes back to Rothschild. Never audited, no one knows what they do. Who made the run? *Nobody knows!* But look what it did.

So right after that, what did we have? What did President Bush call for in November 2008? Remember what was set up? *Called the G-20!* Remember that? 'Oh, we can't have these things going on like this. We can't have them selling securities like this.' Which is true. How we got into the mess of these securities was this: because of Bill Clinton, Barney Frank, Chris Dodd, Fannie Mae, Freddie Mac. They gave loans to people that they knew never would be able to pay them back. They created a real-estate bubble *and it burst!*

Now remember what I told you about six or seven months ago, that the seventh district judge in Kansas said that unless the sheriff brings the original note and the original deed of trust to foreclose on a house, he cannot foreclose because the law requires the original note and deed of trust.

Well, when they took all of these loans, what they did, they'd sell them. If you loan \$100,000 then what you would do, you would sell it to an investor. You'd get your \$100,000 back and then you could loan some more money. You sell it to another investor, get your money back, and you could loan another \$100,000. So then they had good loans, medium loans, bad loans, very bad loans, and bottom scrapers, like sea slugs at the bottom, for loans, never be paid back. And Barney Frank admitted, I think even Rush played a clip from him last week where Barney Frank said, 'Well, some of these may foreclose, but that's okay.'

Why did they do that?

What is the goal?

Remember, there is the ostensible reason for doing it: 'We want people to own their own homes.' There is the insider conspiratorial for doing it: 'We want to control the world.' So how's it going to happen? Who was one of the first ones appointed by our new President Barak Obama to run the treasury? *Timothy Geithner!* Guess what he was busy doing in New

York before he was appointed? And in my own mind I said that's why they chose him, before I even knew this. He was working on the international plan for the G-20 *to make all banks conform to the same rules and regulations worldwide. Yes, indeed!* What did he advocate? *Global Monetary Authority (GMA)!* And to create a financial stability board which was created in April 2009, at the G-20 in London.

What are they going to do?
How are they going to handle the dollar?

Everything they say they're going to do to save the dollar is going to destroy the dollar, because that's what they want. And if the dollar is destroyed, what's going to happen to the whole world? *The whole world's going to go bankrupt, too.*

Now what do you do? Well, they let everybody suffer until they are like they were with the seven-year's famine in the time of Joseph. 'What are we going to do? How can we live? We don't have jobs! We don't have food! We'll sell ourselves to you for food and become your slaves.' Don't you think they already have the solution on the board? *There are boards, you can't see them, but they do.* What are they talking about? *Global Monetary Authority, led by the IMF.* The IMF is the International Monetary Fund, has a nice big office in Washington, D.C., but its main headquarters is in Basil, Switzerland. Basil, Switzerland is not a part of Switzerland. It is a separate sovereign piece of real estate for the Bank of International Settlements. You can never go in and audit. They are not under any obligation to tell you anything about anything. But they are the ones who control all the trade in the world. And what is it that they really, really want?

If everything goes bankrupt and there's all this money—dollars, yen, pounds, marks, rubles, and whatever other kind of money—it's worthless! Best thing you can do with it is recycle it. How did they stabilize Western Germany after WWII? You know how that was done? They were having trouble with black market. They were having trouble with prices. They were having trouble with starvation. The mark was worthless. The United States government printed new marks and brought them to Germany and established a new monetary system. So that's what they will do. You'll have the global monetary authority.

Why are all banks everywhere in the world in trouble? Have so much debt? Here's another report: [The G-20 Agreed to Strangle Us With Debt.](#) The headline tells it all. Now there comes a point when you have debt and then you end up, you have payments to make. Let's say you have five credit cards and you have some credit on all five of them. You don't have any money coming in, or you don't

have enough so you take a cash advance on this card so you can pay on number five. And then number three becomes due and then you take some from number four and pay on number three. And then you have enough cash coming in, you can pay them all down a little for a while and then you've got to do the same thing. Then the time is going to come when you have no income coming in and they're all due. You can no longer manipulate it. So that's exactly what's going to happen. What they want is a world currency.

Remember the sermon *Aftershock #2?* Remember the one where I read there where it said that the next coming thing is going to be an *international monetary system*, digital—probably be paper at first—and what did they say they would call it? What was that? *An icon or econ or ecom*, or something like that. Anyway, there are many different names for the coming new world currency, but it's going to come. What's going to happen when that world currency comes? *Control!* What can you do with control? Well, first of all when the world currency comes in and is enacted, all of a sudden trade and business and everything will pick up. There's going to be one big advantage for everyone, which is this: Everyone is going to be at zero wage. So now they can dictate how much a carpenter in Japan makes and how much a carpenter in America makes and it will be the same. They couldn't do that before.

1-Thessalonians 5—I have often wondered about this and thought about this and wondered how is this going to take place? Especially when you read Matt. 24 that you're going hear of wars and rumors of wars, and so forth.

1-Thessalonians 5:1: "Now then, concerning the times and the seasons... [We're supposed to know the times and seasons. We don't know the day or the year. We are supposed to be watching to see what's going on so we can understand how things may fall together.] ...concerning the times and the seasons, brethren, there is no need that I write you; for you yourselves understand perfectly that the day of *the Lord* will come exactly as a thief *comes* by night. For when they say, 'Peace and security...'" (vs 1-3). Now have we ever, *ever, ever* had that in the world? *NO!*

How could that possibly be? I think I understand now. Bringing in a world currency has many advantages:

1. Total control over all central banks, over all countries, because it will be one currency.
2. There will be no balance of payments between countries. That will eliminate

currency speculations; George Soros will have to find a new occupation.

3. With that control, no one can make war, because it takes money to buy arms and ammunition—right? And if you don't comply with the world-bank, *no money!*

That'll get it—right? *No doubt!* What else can happen then? It'll solve the problem that they've had for a long time, trying to change every government individually to make it fit into the kind of government, which will go into a world government. They were going at it backwards, trying to get the governments lined up first, and then get the world government lined up, and then get the currency lined up. Now the priorities are totally switched around and the top priority is get world controlled money. Then you can control the governments. Doesn't matter what kind of government you have in whatever nation it is now anymore.

I think you're going to learn with this 2010 election that their goal of trying to convert the U.S. into a Socialist/Marxist state in 18-months has failed, and it was a waste of time. Because they went about it the wrong way and they got the wrong man and they had the wrong things. So collapse everything with debt. Have all the banks coordinated, bring out a world monetary authority, regulation, currency, and digital money, and now

- you can have peace, because no one can start a war without money.
- you can have security because now we control everything.

Isn't that what Hitler offered? 'We'll give you security.' Even the jihadists will not be able to have war, because they won't be able to buy arms and get money. So now we have peace and security. Then what happens? *You can't stop all of it!*

"...then sudden destruction will come upon them, as travail *comes* upon a woman who is with child; and they shall by no means escape" (v 3).

Let's come back to Revelation 13 and let's see that. See how you can solve all of these difficult problems with a world currency—isn't that amazing? And here all of these bankers have been going about it trying to rearrange the governments so the countries, one-by-one, or like Europe, try and get them all together in one unit. That's not working the way that they figured. But if they have a world currency, now they can dictate terms to *all countries*. That will be unprecedented.

Good question came up, which is this: Who are the *they*? *The super-elite of the world who are the direct agents of Satan the devil!* They and all their workers and minions that go with them! What they've tried to do is infiltrate all the governments

and political parties and work it that way. Now they're finding that that's a total waste of time, and too much money, and all of this sort of thing. Just collapse all the economies, get rid of all the money as we know it now, bring in a world digital currency, one central bank. Now you control the money and like Rothschild said, 'I don't care who runs the government. If I can control the money, I can control the government.' So it gets right back to the basic dictum of Rothschild when he took over the Bank of England. And remember, he also had the Bank of Germany, the Bank of France, the Bank of Austria, the Bank of Switzerland, the Bank of Italy, the Bank of Spain, all owned by various Rothschilds.

So, here's what's going to happen. They will have peace and security. Here is *the beast*, Revelation 13:2: "And the beast that I saw was like a leopard, and his feet like *the feet* of a bear, and his mouth like *the mouth* of a lion; and the dragon gave him his power, and his throne and great authority." Remember what Satan told Jesus. 'If You will worship me, I will give you all these kingdoms and the power and glory of them, for it has been delivered to me and I give it to whomsoever I will.' These are the ones who are willing, giving themselves to Satan.

"And I saw one of his heads as *if it were* slain to death, but his deadly wound was healed; and the whole earth was amazed *and* followed the beast. And they worshiped the dragon, who gave *his* authority to the beast. And they worshiped the beast, saying, 'Who *is* like the beast?... [We've never had anything like this.] ...Who has the power to make war against him?'" (vs 3-4). So if you don't have the power to make against him, what do you have? *You have peace*—right? You can control the money supply, can't make an army, can't produce arms. The only armies will be under the jurisdiction of the world government. Now with the world currency you can bring a world government, because you've got to regulate everything—right? *Yes!*

"And a mouth speaking great things and blasphemies was given to him; and authority was given to him to continue *for* forty-two months" (v 5). ***He's given power over the whole earth!***

So, that's how it's going to come. What are we going to be watching for? Now you better be prepared for what's going to happen economically, because it's going to be nasty, mean, bloody, and bad. They're going to be people running around shooting, looting, taking, stealing, robbing. If you live in the middle of a big city you better find yourself a nice little village out there someplace way, way from everything.

Hollister's not a big city. I'm glad we live here in Hollister, but that doesn't necessarily give us

all the protection. ***The only One Who can protect you is God!*** You have to be prudent so when all the stores close, which they will, they will have no supplies, everything they have will be bought out and probably sold at five or six or ten times the price, because people will be desperate. Look what happened with some of supplies when they knew the hurricanes were coming. They went in the stores and stripped everything out of it and people were fighting to get in there and get things. Think what it's going to be like when nobody has any money, checks are no good, credit cards are no good, the whole system is broke! *Not going to be pleasant!*

Comment was made if you control the money, you control the food. *Absolutely!* Guess what big corporations control most of the food? *You've got it!* What about gold and silver? Well, that's the only thing that is going to buy you anything, for a while. You have to be very careful with that. If everybody's starving and getting thin, you better starve and get thin, too, or they're going to look at you and say, 'Well, he is still fat.' I know what that's like, because I've been trying to lose weight for a long time. 'He must have some food hidden someplace. Let's go get it.' One of the things that you can have for barter is toilet paper; a very necessary supply.

What about water? Will city utilities collapse? *Who knows what will happen.* You don't know what's going to happen. Look at the people up there in Pacifica where the gas main blew. Their houses were sitting right on top of a 24-inch round gas pipe, right in the most active earthquake area in California. Then they were saying, 'Oh, I wonder what made this break.' It blew up and burned down all those houses. Imagine those poor people sitting on top of it. The real estate agent said, 'Well, here I want you to look at this map. Here's a gas line that goes under your property; nothing to worry about, it's okay, just initial here.' One of the possible causes of that blowing up was a smart meter on one of the houses because of however it would be. But anyway if you have that much gas escaping, you're going to find a spark somewhere. It's not going to take anything. All it has to be is a pilot light in somebody's gas hot water heater and boom, the whole thing goes. Even a telephone could do it.

One more article: [IMF Predicts New World Order](#). Now the bankers understand, you can't bring it in politically first, you must bring it in monetarily. And hooray for the debt! 'Now we can manipulate it.' So what are they going to do? They will come in and rescue the debt this way. 'We will buy the U.S. debt at whatever pennies on the dollar and we will use that for our capitalization of the bank.' And whatever debt from any country, and they can use that as capitalization. And they will say, 'United

States government, you will only have to pay us X amount in interest and X amount in principal and we're going to forgive the eighty percent.' Same way with all countries.

Everyone's going to say, 'Oh, hooray. Oh, what a wonderful thing! Oh, this is sent from God.' *Yes, the god of this world* and now he's got you. Just like the song: He's got the whole world in his hands.

So don't be afraid! It's going to come. Everyone likes to say, 'Oh, I'm glad I'm living in the last days when Jesus is going to return.' You better read all the disaster that's going to happen and be prepared.

- The *only strength* you're going to have is from God.
- The *only protection* you're going to have is from God.

And when God says, 'No more protection,' ***you're going to stand for God and give your life to God just like Christ gave His life for you.*** You expect the death of Christ to be applied to your life—correct? *Yes!* So your life is going to have to stand there and you're going to have to die for Christ. Those will be the options that we will have. We might as well know it ahead of time.

It's not like the scene in the coliseum where the lions were out there eating the Christians. I saw this in a movie, never will forget it. In the background here's one of these supposed Christians captured and ready for the next venue of lion dinner. While they heard the screams of all those being eaten, he was in there saying, 'Lord, you never told us about this.' Well, God tells us about it. We're living in the end-times and those are the days which are going to be.
